

Contract Staffing & Information Technology

Many people need immediate help with something within their organization! Perhaps someone is out of the office on extended medical leave, one of your key people moved out of the area and you find yourself short-handed, or one of your directors just received a great promotion and it was not within your organization so you are in a pinch. Gans, Gans & Associates has discovered that things happen every day which may cause your situation at work to become difficult. Well . . . we are here to help! When you find yourself in that position, please think of us.

Here are some of the areas with which we can assist:

- *Administrative Assistants*
- *Customer Service Representatives*
- *Legal Assistants/Paralegals*
- *IT Professionals*

Simply call us at 813-986-4441 and ask for Kim Sallie at extension 7016. She will work with you to determine your specific needs and then find the right person to help you.

As we all know, Information Technology is one of the most important aspects of any organization today! That is one of the reasons that Gans, Gans & Associates has set up an area focusing upon that need for your organization. Whether you need staff augmentation, IT assessment or a contract consultant to help you through a specific project, we are here for you. You may be like many other people who are not ready to hire someone full time to assist with your IT solutions -- we can help match you with the proper consultant to fit your needs wherever you are located.

Here are some of the areas with which we can assist:

- Analysis, Design, & Implementation*
- IT Planning*
- Software Systems; Selection and Implementation*
- Project Management*
- IT Infrastructure*
- Business Continuity Planning*
- IT Management Augmentation*
- ERP Systems*
- Network Security*
- VOIP Phone System Hosting*
- E-mail & Collaboration Systems*

Simply call us at 813-986-4441 and ask for Eric Billington at extension 7018 and we can make things easier for you and those working with you. It is our job to make things run more smoothly for your organization and help take some of that stress out of your life.
